SOFT TISSUE COVERAGE SKILLS COURSE

(For OTA Members)

Joseph R. Hsu, MD
Course Chair

Invited Faculty
John David Adams, MD
MAJ James A. Blair, MD
Jarrod E. Dumpe, MD
Michael Suk, MD, JD, MPH, MBA
David A. Volgas, MD
Lawrence X. Webb, MD

OVERVIEW

Limited to OTA Members, this Soft Tissue Coverage Skills Course is a hands-on skills lab (cadaver) to teach orthopaedic trauma surgeons techniques in soft tissue coverage. Techniques will focus on skin augmentation and rotational flap coverage for the lower extremity that can be translated into practice. All faculty are Orthopaedic Trauma Surgeons that are active members of the OTA with extensive experience in soft tissue coverage. Entire course takes place in a skills lab.

CME credits will be awarded for your participation at this activity.

TARGET AUDIENCE

OTA Members: Fellows or Early to Mid-Career Surgeons (0-15 Years)
