Re: AAOS/OTA Co-Branded ICL Symposium Submissions for the 2015 AAOS Annual Meeting

DEADLINE: March 3, 2014

The OTA Education Committee would like to expand and enhance the offered trauma Instructional Course Lectures provided at the Annual American Academy of Orthopaedic Surgeons meeting. We are soliciting ideas from you for the 2015 meeting. ICL topics should be of importance to the average AAOS member. Presently scheduled 2014 ICLs are listed at the bottom of this communication. **Please submit your ideas via the link below by March 3, 2014.**

<http://www.surveymonkey.com/s/2015CobrandedICLApplication>

We feel this is a great opportunity for the OTA membership to enhance and improve the AAOS Instructional Course Lectures.

Those invited to submit an application for an AAOS/OTA Co-Branded ICL or Symposium will be notified by March 27-28, 2014 and asked to submit the AAOS application to the OTA office April 11, 2014, so the Co-Branded ICL & Symposium Work Group of the Education Committee can review and ensure the applications are properly submitted and the faculty fairly selected. **The application is then submitted by you to the AAOS via their website by the May 1, 2014 deadline.**

Again, the goal of this process is to try to increase OTA membership involvement at the AAOS annual meeting. Of course, OTA members can also submit ICL proposals directly to the AAOS, but these proposals will not have the opportunity to be labeled as OTA sponsored education.

The below Co-Branded ICLs are presently scheduled for 2014. Please submit your new ideas via this link by March 3, 2014. <http://www.surveymonkey.com/s/2015CobrandedICLApplication>
