

# PATELLA

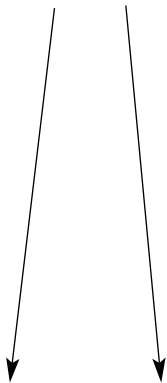

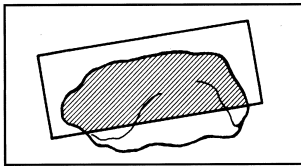

BONE: PATELLA (34)

Location: Patella (34)

Types:

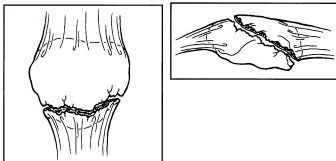

A. Patella extra-articular (34-A)

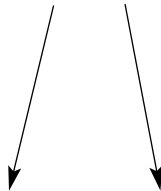

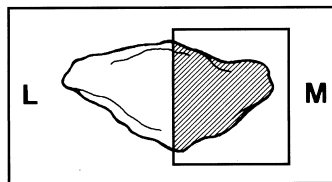

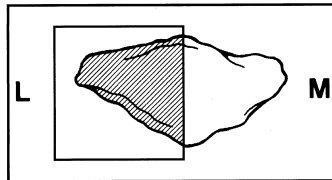

Groups:

Patella, extra-articular (34-A)

1. Patella, extra-articular, avulsion (34-A1)
2. Patella, extra-articular isolated body (34-A2)

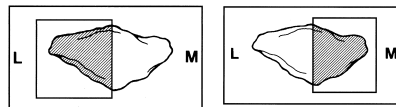

B. Partial articular, vertical (34-B)

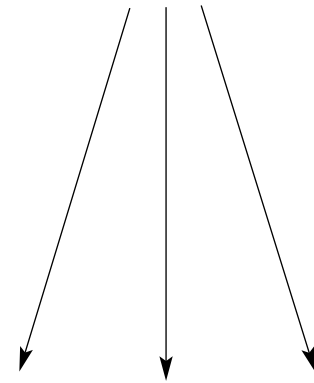

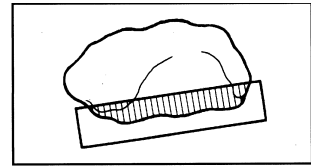

Patella, partial articular, vertical (34-B)

1. Patella, partial articular, vertical, lateral (34-B1)
2. Patella, partial articular, vertical, medial (34-B2)

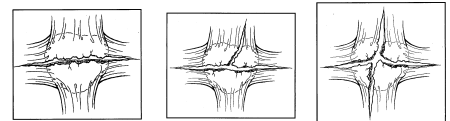

C. Complete articular, non-vertical (34-C)

Patella, complete articular, non-vertical (34-C)

1. Patella, articular, transverse (34-C1)
2. Patella, articular, transverse plus second fragment (34-C2)
3. Patella, articular, comminuted (34-C3)

Note for patella:

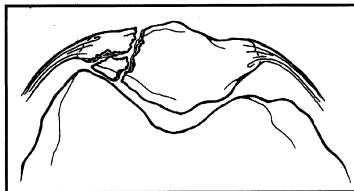

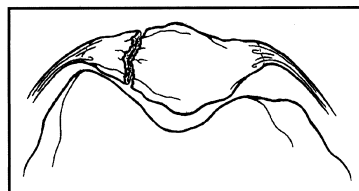

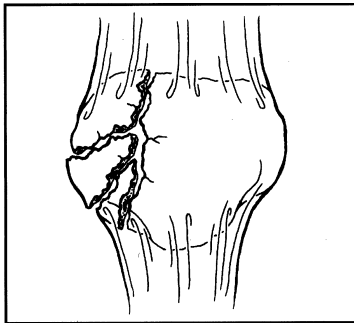

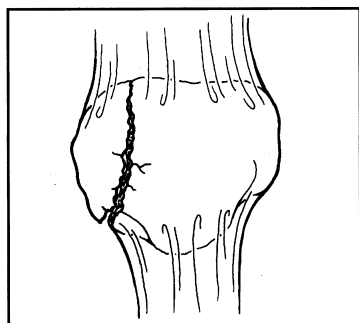

- There are no subgroups of A.

Patella, partial articular, vertical, lateral (34-B1)

1. Noncomminuted (34-B1.1)

2. Comminuted (34-B1.2)

**B1**

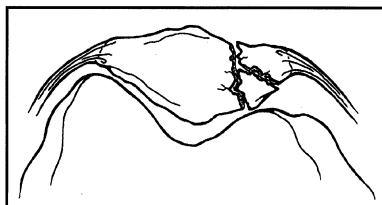

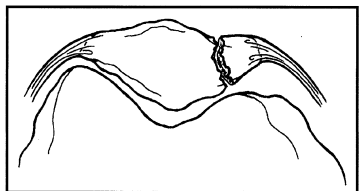

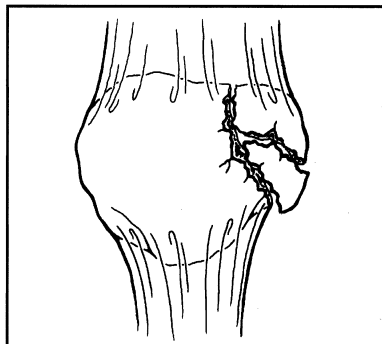

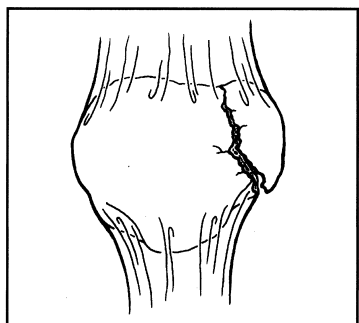

Patella, partial articular, vertical, medial (34-B2)

1. Noncomminuted (34-B2.1)

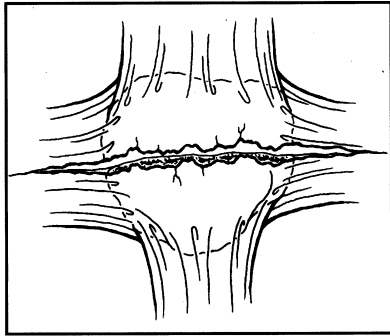

2. Comminuted (34-B2.2)

**B2**

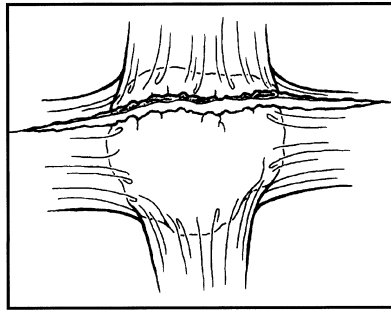

Patella, complete articular, transverse (34-C1)

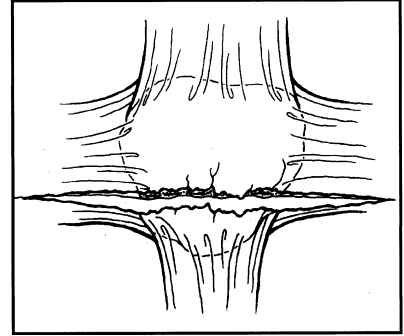

1. Middle (34-C1.1)

2. Proximal (34-C1.2)

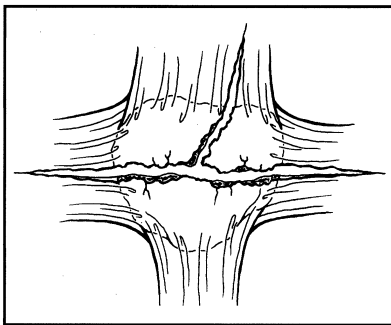

3. Distal (34-C1.3)

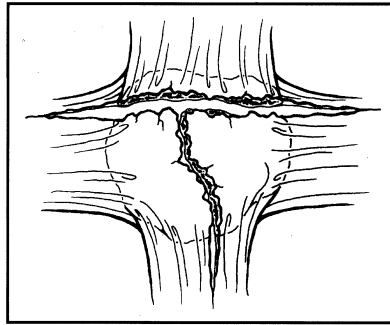

C1

Patella, articular, transverse plus second fragment (34-C2)

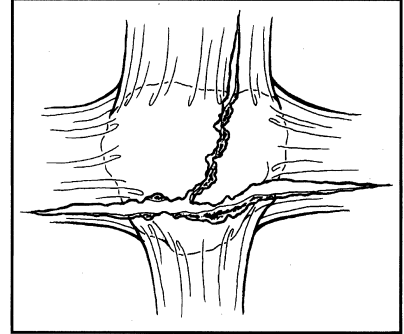

1. Middle (34-C2.1)

2. Proximal (34-C2.2)

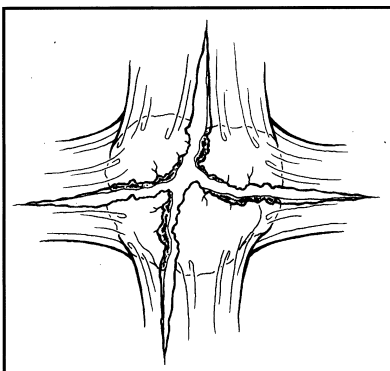

3. Distal (34-C2.3)

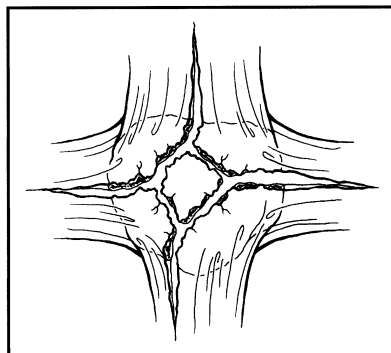

C2

Patella, articular, complex (34-C3)

1. With 3 fragments (34-C3.1)

2. More than 3 fragments (34-C3.2)

C3
