OTA Coding and Classification Committee newsletter update 8/29/06 by J.L. Marsh, MD (Committee Chair)

In **coding**, the five of the eight OTA codes submitted to the AMA's Relative-Value Update Committee's (RUC) meeting one year ago in Chicago have now completed their review through CMS. The RUC recommended that four codes (20680 – removal of implant deep, 24430 – repair of nonunion/malunion humerus without graft, 27465 – femoral shortening, 27709 – osteotomy tibia and fibula) have RVU increases ranging from 10-75%. Based on the survey data, another code (27470 – repair nonunion/malunion femur without graft) was recommended for no change. CMS has accepted these RUC recommendations. Three of the codes (20692 – application of multiplane fixator, 27472 – nonunion/malunion femur with graft, 27720 – repair of nonunion tibia without graft) were deferred for CPT review. Ongoing work, which the committee plans to complete in the late fall, involves suggesting further trauma codes for CPT revisions or additions. A preliminary list has been compiled.

Cary C Schwartzbach, MD, a community member from Springfield, Virginia, helped with the photo shoot for upcoming PSA ad co-sponsored by the AAOS and OTA.

In **fracture classification**, the committee has agreed to a unified alpha numeric code proposed by the AO CTF committee which will eliminate the differences between the two group's codes that have existed since 1996 and move closer to a single universal fracture classification. This unified code will form the basis of the planned republication of the OTA classification. Twenty OTA members have reviewed the 1996 classification and submitted suggestions to improve it. The committee will collate these and, at a full day meeting prior to the annual meeting, decide which changes will be made. An introductory chapter reviewing fracture classification over the last ten years has been written. Publication is anticipated early in 2007. Through this publication we hope to reinvigorate interest in the language we use to communicate and record information about fractures and dislocations.

The OTA fracture **database** is offered as a member benefit. Check with Sharon Moore for a password smoore@aaos.org or ota@aaos.org and then log onto the website to look at this user friendly tool to help members with clinical research projects, research databases, multi-institutional collaborations and provide access to past fracture cases for educational purposes. A demonstration will be given at the annual meeting at 1:00 pm on Friday afternoon in the Camelback Mountain Room of the Arizona Biltmore Hotel. If you have focused questions about the database or if you are just curious about how it might be of benefit to you, please plan to attend.

Finally, the OTA Board has accepted a proposal by the Committee to **split the current committee** into two committees: one on *Classification and Outcomes* covering issues such as fracture classification, OTA database and outcomes and one on *Practice management* covering coding and other issues related to the finance and management of orthopedic trauma practice. It will also allow new members to be involved with both of these committees. Changes in the By-Laws are necessary and will be considered at the Members Business Meeting on Thursday, October 5 following the general session of the OTA Annual Meeting.

Bylaws and Hearings Committee Meeting— Conference Call of July 27, 2006

Minutes:

Present: Lawrence X Webb, MD
George Russell, MD (stuck on an airplane but joined later)
Carlo Bellabarba, MD

1. No previous minutes to review.
2. Bylaws changes sent from the Board:
Break up of the “Coding and Classification Committee” into the “Classification, Database and Outcomes Committee” and the “Practice Management Committee” Proposed specific alterations of the Bylaws were written and approved by us and forwarded to the Board (see below).
3. Discipline Hearings: none thus far in 2006.
4. Annual Review of OTA Website.
Reviewed by our committee and found to be excellent.
5. Committee members felt that the current level of services provided by our committee was appropriate and had no suggestions as to how to expand the services beyond that currently provided.

Proposed Bylaws Changes (Rewritten Article X, sent to the Board for their approval for adoption):

ARTICLE X Appointed Committees

Section I. Classification and Organization

The Board of Directors may appoint one or more committees, each consisting of two or more members to serve at the pleasure of the Board of Directors.

The appointed committees of the Corporation shall be as follows: Annual Meeting Arrangements Committee; Archives Committee; Bylaws and Hearings Committee; **Classification Database and Outcomes Committee; Practice Management Committee**; Education Committee; Evaluation Committee; Fellowship and Career Choices Committee; Finance and Audit Committee; Fundraising Committee; Health Policy and Planning Committee; Past President Liai-

son Committee; Program Committee and Research Committee; Public Relations and Branding Committee; Strategic Planning and Board Development Committee. Each appointed committee will have a chairperson appointed by the Board of Directors. A majority of the members of an appointed committee shall constitute a quorum for the transaction of business by that committee.

Section V. Classification, Database, and Outcomes Committee

The President, with approval from the Board of Directors, shall appoint six (6) members of the Corporation to the Classification, Database and Outcomes Committee for one three (3) year term each. The Committee members may serve one (1) successive three (3) year term. The Chairperson of this Committee will serve for three (3) years. The President, with approval of the Board of Directors will provide for changes to this Committee.

Section VI. Practice Management Committee

The President, with approval from the Board of Directors, shall appoint six (6) members of the Corporation to the Practice Management Committee for one three (3) year term each. Committee members may serve (1) successive three (3) year term. The Chairperson of this Committee will serve for three (3) years. The President, with approval of the Board of Directors will provide for changes to this Committee.

Section XVI. Strategic Planning and Board Development Committee.

The membership of the committee shall consist of the five 5 members of the presidential line: Second president elect, first president elect, president, immediate past president, and second past president. The President can appoint ad hoc members to the committee with approval of the Board of Directors for up to a three year term. The second past president shall be the Chair of the committee. The Board of Directors will provide the charges for this committee.

Respectfully submitted,

Lawrence X Webb, MD
Committee Chair

J-1 Visa Waiver Survey Results

1. Are they coming to a hospital near you to provide orthopaedic trauma call coverage?

1. Are you aware of the federal J-1 visa waiver program which places physicians in underserved areas of the USA?			
		Response Percent	Response Total
Yes		44.9%	22
No		55.1%	27
Total Respondents			49
(skipped this question)			0

2. Has your state requested/utilized its annual limit (30 per state) of J-1 visa waivers?			
		Response Percent	Response Total
Yes		2%	1
No		4.1%	2
Don't know		93.9%	46
Total Respondents			49
(skipped this question)			0

3. Are J-1 visa waivers being used in your state to place physicians at hospitals to provide coverage for orthopaedic trauma call?			
		Response Percent	Response Total
Yes		4.9%	2
No		95.1%	46
Total Respondents			48
(skipped this question)			0

4. Are you aware of J-1 visa waivers being used in any state to place physicians to provide orthopaedic trauma call coverage?			
		Response Percent	Response Total
Yes		10.4%	5
No		89.6%	43
Total Respondents			48
(skipped this question)			1

5. Do you support the use of J-1 visa waivers to place physicians to provide coverage for orthopaedic trauma call?			
		Response Percent	Response Total
Yes		36.2%	17
No		63.8%	30
Total Respondents			47
(skipped this question)			2

6. Do you support dropping the language proficiency component of ECFMG examination?			
		Response Percent	Response Total
Yes		4.2%	2
No		95.8%	46
Total Respondents			48
(skipped this question)			1

Announcements

1. The bylaws as proposed by Dr Webb's bylaws committee were approved by the OTA board of directors and will be voted upon by the membership at the Business Meeting Oct 5 - 5:30 pm at the Arizona Biltmore McArthur Ballroom. The members will also be voting on officers who begin their term in February 2007.
2. If you would like to serve on a committee for the OTA, please email your areas of interest to www.ota@aaos.org. Please list your top three choices in order of preference.
3. Michael J. Bosse, MD, OTA President, Jeffrey O. Anglen, MD, OTA President-Elect, and the OTA board of directors cordially invite all OTA members and their guests to attend the annual OTA dinner/reception February 17th, 2007 beginning at 6:30 pm to be held aboard the Midway Ship that includes the San Diego Aircraft Carrier Museum.
4. Pre-Registration for the OTA 2007 Specialty day is available until January 4, 2007 on the AAOS website page 29 of the Specialty Day program from <http://www.aaos.org/education/anmeet/anmeet.asp>

The Registration Form is available to AAOS members starting on October 4 and on October 11 for non-AAOS members.

If you miss advance registration and attend Specialty Day Only...the on-site registration will be on Friday February 16, 7:30 am – 4:30 pm and Saturday 7:30 am – 4:30 pm.

Midway Magic is real. No other carrier served our country for 47 years, spanning victory in WWII, Korea, the Cold War, Vietnam, the era of detente and Desert Storm. More than 200,000 Americans shared in the odyssey, setting new standards of naval air operations that remain to this day. As one of San Diego's newest event venues, the Midway will provide a magical experience for our guests, capturing the beauty of the San Diego Bay and paying tribute to our city's rich naval heritage.
