

General Information

Target Audience

This meeting is designed for orthopaedic surgeons and is beneficial to related allied health care professionals. OTA has created the program based on stated needs and interests expressed from previous Specialty Day attendee evaluations.

Educational Objectives

- To use prominent recent studies in the orthopaedic literature to enhance decision-making and maximize outcome in specific areas of fracture care including the upper extremity, pelvis/acetabulum, and ankle fractures
- To learn about, and incorporate in practice, modern fixation techniques for complex knee and ankle fractures
- To understand the complexities of providing geriatric hip care on both patient-based and systematic levels
- To use evidence-based medicine in the decision-making process for the management of proximal humeral fractures and their complications
- Summarize treatment options for complex fractures of the upper extremity including the clavicle, humeral shaft, and distal humerus

Credit Hours

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the American Academy of Orthopaedic Surgeons and the Orthopaedic Trauma Association.

The American Academy of Orthopaedic Surgeons is accredited by the ACCME to provide continuing medical education for physicians. The American Academy of Orthopaedic Surgeons designates this live activity for a maximum of **8 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
