2017 RESEARCH & EDUCATION DONORS

The Orthopaedic Trauma Association (OTA) gratefully acknowledges the 2017 Research and Education Donors. The continued success and increased impact of the Orthopaedic Trauma Association's research and education effort is dependent upon foundation and industry support. The OTA expresses its sincere appreciation to these contributors for their generous financial support.

DIAMOND (\$250,000 and above)

PLATINUM (\$150,000 - \$249,999)

GOLD (\$100,000 - \$149,999)

BRONZE (\$50,000 - \$74,999)

COPPER (\$25,000 - \$49,999)

SPONSOR (\$5,000 - \$24,999)

MEMBER (\$1,000 - \$4,999)

Michael J. Gardner, MD
Annual Meeting
Program Chair

WELCOME

Dear Colleagues,

On behalf of the OTA Program Committee and President William Ricci, MD, I am pleased to invite you to the 34th Annual Meeting of the Orthopaedic Trauma Association (OTA) to be held in Kissimmee, Florida from October 17th to 20th, 2018.

In the months leading up to the meeting, the Committee reviewed over 1,000 scientific abstracts and over 80 Breakout Symposia. This has culminated in a program that includes the latest cutting-edge, high quality research and state-of-the-art treatment for musculoskeletal injuries.

The paper presentations will kick-off with a "Program Highlights" session, which will feature ten original research presentations that are of significant interest, of the highest quality, and have the potential to change practice. In addition to these ten studies, there will be an additional 73 paper presentations. Concurrent with these sessions, there will be 38 breakout sessions and 6 hands-on skills sessions, each with a specific focus, depending on your interest. During all this, there will be over 170 posters in the Exhibitors Hall to peruse.

Four main symposia will be the focus of this year's meeting: Current Evidence on Hip Fracture Treatment in 2018; Domestic Mass Casualty and Disaster; Pelvic Fracture Treatment and Approaches to the Polytrauma Patient; and The Current Status of Evidence-based Medicine in Orthopaedic Trauma. Additionally, the OTA is proud to welcome the Netherlands as the 2018 Guest Nation, and Dutch representatives will give a special presentation on Friday afternoon.

This year, we are very honored to welcome John H. Wilber, MD as the John Border Memorial Lecturer. As the Chairman of Orthopaedic Surgery at Case Western and an icon in orthopaedic trauma, I think we will find his talk both interesting and enlightening.

Finally, we encourage all to arrive early to the Annual Meeting and take full advantage of one or more of the pre-meeting courses:

- **Basic Science Focus Forum** chaired by Edward J. Harvey, MD
- **Orthopaedic Trauma Boot Camp** chaired by Robert P. Dunbar Jr, MD and Frank A. Liporace, MD
- **PA/NP Course** chaired by Lori Reed, MD, Daniel Segina, MD, Daniel J. Coll, PA-C, and Dennis C. Gregory, PA-C
- **International Orthopaedic Trauma Care Forum** chaired by Peter V. Giannoudis, MD
- **E & M and Coding Course** chaired by Paul T. Appleton, MD, and Margi Maley of Karen Zupko & Associates
- **Young Practitioners Forum** led by Lisa K. Cannada, MD, and Jodi A. Siegel, MD
- **The OTA Residents Fracture Course** chaired by Carla S. Smith, MD and Michael P. Leslie, DO, and will run concomitant to the Annual Meeting, Wednesday through Friday.

The common feature of each program event is the commitment to providing the highest quality, most interesting and clinically relevant material related to musculoskeletal trauma by world-class faculty and experts. We truly believe that anyone involved in the field will benefit from the 2018 OTA Annual Meeting. We look forward to seeing you in Florida!

Sincerely,

Michael J. Gardner, MD
Program Chair

Thursday-Saturday, October 18-20, 2018

2018 ANNUAL MEETING

Program Committee

Michael J. Gardner, MD Program Chair

Stephen A. Kottmeier, MD Program Co-Chair

Andrew M. Choo, MD

Brett D. Crist, MD

Gregory J. Della Rocca, MD, PhD, FACS

David J. Hak, MD

Gilbert R. Ortega, MD

David W. Sanders, MD

Gerard P. Slobogean, MD

TARGET AUDIENCE

The Orthopaedic Trauma Association (OTA) Annual Meeting is for the benefit of orthopaedic trauma surgeons and related allied health care professionals.

MEETING HIGHLIGHTS

- 38 Breakout sessions including a variety of topics such as pelvic fractures, compartment syndrome, periprosthetic fractures, avoiding burnout, managing lawsuits, dealing with bone loss, open fractures, and many others.
- 80 high quality paper presentations, including session of Highlight Papers reflecting practice-changing research and over 170 posters
- 4 main symposia focusing on domestic mass casualty; pelvic fractures, hip fractures and evidence-based medicine - current status in orthopaedic trauma
- Industry Symposia showcasing products, demonstrating techniques and/or presenting research offered at three convenient times.

Visit ota.org for a full description of all papers, labs, and details on each breakout session. **Registration opens June 4.**

BORDER LECTURER

John H. Wilber MD

Chairman Department of Orthopedic Surgery
MetroHealth Medical Center, Cleveland, OH

HANDS-ON SKILLS SESSIONS

- Pelvis Fractures: Contemporary Reduction and Fixation – Chip Rount, MD
- Mini Frag Plate Assisted Reductions – Paul Tornetta III, MD
- Proximal Humerus Plating Tips and Tricks – Clifford B. Jones, MD
- Periprosthetic Fractures: Knee – Erik Kubiak, MD
- Ankle Fractures Fixation: Pearls and Pitfalls – Gregory J. Della Rocca, MD, PhD

Format will offer a unique small group forum emphasizing contemporary fracture techniques.

CME
credits will
be awarded
for your
participation
at this activity.

SYMPOSIA and INVITED FACULTY

Symposium I Domestic Mass Casualty and Disaster: Coming to Your Area

Moderator: *David C. Teague, MD*
Christopher T. Born, MD
James R. Ficke, MD

Roman A. Hayda, MD
Daniel J. Stinner, MD

INTERNATIONAL
ORTHOPAEDIC
TRAUMA
ASSOCIATION

Symposium II Pelvic Fracture Treatment: Approaches for the Polytrauma Patient

Moderators: *Sebastiano Pasquale Pietro Cudoni, MD*
Peter V. Giannoudis, MD

Sushrut Babhulkar, MD
Tim Chesser, MBBS
Enrique Guerado, MD

Steve A. Olson, MD
Kees Jan Ponsen, MD

Symposium III The Treatment of Hip Fractures in 2018: Can We Reach a Consensus?

Moderator: *Emil H. Schemitsch, MD*
Abdel-Rahman Lawandy, MD, PhD
Michael D. McKee, MD
Robert V. O'Toole, MD

Steven A. Olson, MD
David W. Sanders, MD
Gerard P. Slobogean, MD, MPH

Symposium IV Is Evidence-based Medicine Hurting or Helping Us- What Should Change?

Moderator: *Edward J. Harvey, MD, MsC*
Julie Agel, MA
Paul Andre Martineau, MD
Samir Mehta, MD

Brad A. Petrisor, MD
Emil H. Schemitsch, MD

INDUSTRY SESSIONS

Thursday, October 18

11:15 am – 1:00 pm

NuVasive: Treating Complex Trauma with a Remote Controlled Intramedullary Device

Session Speakers:

Matthew P. Gardner, MD; Stephen M. Quinnan, MD
J. Tracy Watson, MD

The PRECICE® intramedullary system utilizes an external remote controller to non-invasively lengthen or compress the femur, tibia, or humerus. Drs. Watson, Quinnan and Gardner will share their insight and experience into how the PRECICE technology has improved their trauma practice and allowed them to treat more complex and challenging trauma cases. This session will include case examples, tips and tricks, and how to avoid complications when using PRECICE for their bone transport cases. Time will be set aside for questions and answers at the end of the session.

THREE SEPARATE INDUSTRY SESSION OPPORTUNITIES OFFERED:

Wednesday, October 17

6:30 pm - 8:00 pm

Thursday, October 18

11:15 am - 12:45 pm

Friday, October 19

6:30 pm - 8:00 pm

2018

PRE-MEETING COURSES

GENERAL INFORMATION

VENUE

The Orthopaedic Trauma Association's 34th Annual Meeting, all pre-meeting courses and the Resident Comprehensive Fracture Course will be held at the Gaylord Palms in Kissimmee (Orlando area), Florida. Visit OTA.org to register and make hotel reservations.

Early Bird Registration: Register by October 1st to save \$100 on the Annual Meeting and each Pre-Meeting Registration.

Hotel block closes September 23rd.

Wednesday, October 17, 2018

E&M AND SURGICAL CODING CONUNDRUMS FOR TRAUMA SURGEONS

Margaret Maley, BSN, MS
Senior Consultant
KarenZupko and Associates, Inc.

Paul T. Appleton, MD
Course Chair

OVERVIEW

Margaret Maley from KarenZupko & Associates, Inc. is back to address the biggest coding conundrums facing orthopaedic trauma surgeons. Staged procedures, bone grafts, external fixation and fracture care are just some of the issues addressed in the workshop. Maley will discuss Evaluation & Management coding and documentation including the correct codes to use in the ER, and the documentation required for a consultation. Level of service documentation and medical necessity, hot topics for audits and take backs, will also be discussed.

CME credits will be awarded for your participation at this activity.

Don't miss this opportunity to attend a coding course developed strictly for orthopaedic trauma surgeons and their staff. Using concrete examples and practical tools, this course offers a terrific value investment. Each attendee will receive a copy of KZA's popular workbook full of specific trauma examples. Attend this course to get the answers to your most confounding coding questions.

BASIC SCIENCE FOCUS FORUM

Basic Science Committee

Edward J. Harvey, MD *Chair*

Michael T. Archdeacon, MD

Mohit Bhandari, MD, PhD

Joseph Borrelli Jr., MD

Tyler Morris, MD

Todd O. McKinley, MD

Aaron Nauth, MD

Emil H. Schemitsch, MD

OVERVIEW

The 2018 Basic Science Focus Forum Course is geared towards orthopaedic surgeons whose passion is basic science and how it relates or may affect their practice. Basic science researchers will also obtain valuable knowledge about translational opportunities and how their research may change orthopaedic care. This course will involve 6 main symposia and 29 papers that are targeted at basic science studies and their outcomes.

The attendees of the BSFF program will have the chance to combine with the attendees of the International Trauma Care Forum for an exchange of ideas during the symposium titled, "The Science of Bone Grafting." This combined session has proved to be a great collaboration and a chance to discuss ideas with our international colleagues.

TARGET AUDIENCE

Academic orthopaedic surgeons, community surgeons with an interest in clinically relevant basic science, basic and clinical researchers, residents and fellows will benefit most from this Basic Science Focus Forum.

INVITED SYMPOSIA MODERATORS

Michael T. Archdeacon, MD

Joseph Borrelli, Jr MD

Peter V. Giannoudis, MD

Todd O. McKinley, MD

Aaron Nauth, MD

Emil H. Schemitsch, MD

Visit the **OTA website**
(www.ota.org) for
complete session details,
speakers and papers.

at this activity.

ORTHOPAEDIC TRAUMA BOOT CAMP

Program Chairs

Robert P. Dunbar Jr., MD

Frank A. Liporace, MD

OVERVIEW

The 2018 OTA Bootcamp Course offers busy surgeons an intense review of the current state of the art of fracture management. We bring together thought leaders in Orthopaedic Trauma for case-based presentations and lab sessions that illustrate the major issues related to the management of each fracture. This course is designed for busy surgeons who treat fractures as part of their practice. The Boot Camp Course offers surgeons the chance to add practical applications to their practice and have one's most pressing questions answered. CME credits will be awarded for your participation at this activity.

TARGET AUDIENCE

This course is intended for the practicing orthopaedic surgeon who takes emergency room or trauma call. Current techniques in orthopaedic care will be stressed with attention to appropriate soft tissue management and up-to-date implant selection. Case discussions will be used for interactive learning and audience participation.

INVITED FACULTY

Michael T Archdeacon, MD
Drew A Brady, MD
Eben A Carroll, MD
Brett D Crist, MD
Derek J Donegan, MD
Robert P Dunbar, MD
Daniel Dziadosz, MD
Reza Firoozabadi, MD
Daniel S Horwitz, MD
John P Ketz, MD
Erik Kubiak, MD
Joshua Langford, MD
Thomas M Large, MD
Frank A Liporace, MD
Christopher M McAndrew, MD
Samir Mehta, MD
Steven J Morgan, MD
William M Ricci, MD
Andrew H Schmidt, MD
R. Bruce Simpson, MD
James P Stannard, MD
Paul Tornetta, MD
J. Tracy Watson, MD
Donald A Wiss, MD
Richard S Yoon, MD

CME
credits will
be awarded
for your
participation
at this activity.

ON THE AGENDA

LECTURES AND CASE PRESENTATIONS

- Upper Extremity
- Pelvis & Hip
- Lower Extremity
- Knee and Leg
- Foot & Ankle
- Infection
- Nonunion/Malunion
- Getting Through the Night

LABS

- Proximal Humerus Plating
- Distal Humerus Plating
- Pilon Plating
- Bicondyar Plating
- Semi-Extended Tibial Nailing

INTERNATIONAL TRAUMA CARE FORUM

International Committee

Peter V. Giannoudis, MD, FACS, FRCS *Chair*

Ney Amaral, MD

Fernando de la Huerta, MD

Theodore Toan Le, MD

Amir M. Matityahu, MD

Cyril Mauffrey, MD, FACS, FRCS

Hans-Christoph Pape, MD, FACS

Sara M. Putnam, MD

Thomas A. (Toney) Russell, MD

OVERVIEW

The International Trauma Care Forum is focused on gathering trauma surgeons from across the globe together to exchange ideas and knowledge on the differences in treatment from a global perspective. This one and a half day session is comprised of 34 papers and 6 symposia, one of which features presenters from the OTA 2018 Guest Nation, the Netherlands.

Attendees of the International Trauma Care Forum will collaborate with the attendees of the Basic Science Focus Forum and exchange ideas during the symposium titled, "The Science of Bone Grafting." This combined session has proved to be a great way to come together to discuss ideas with basic science researchers.

TARGET AUDIENCE

The Orthopaedic Trauma Association (OTA) International Orthopaedic Trauma Care Forum is for the benefit of orthopaedic trauma surgeons and related allied health care professionals with an interest in international trauma healthcare.

INVITED SYMPOSIA MODERATORS

Fernando de la Huerta, MD

Victor A. De Ridder, MD

Kodi Kojima, MD

Cyril Mauffrey, MD

Theodore Miclau, MD

Complete details available at www.ota.org.

SYMPOSIA

- Surgical Techniques:
How I Do It: Elbow Injuries
- The Netherlands Guest Nation Symposium
- Atypical Fractures
- Femoral Head Fractures:
An Update
- Intertrochanteric Fractures: Global Perspectives on an Expanding Problem
- THE SCIENCE OF BONE GRAFTING
Combined Session with Basic Science

CME credits will be awarded for your participation at this activity.

ORTHOPAEDIC TRAUMA FOR PAs & NPs

Program Chairs

Lori Reed, MD

Daniel Segina, MD

Daniel J. Coll, PA-C

Dennis C. Gregory, PA-C

OVERVIEW

The 2018 OTA PA/NP Orthopaedic Trauma Course offers PAs and NPs an exciting look at current state of the art fracture management. The course brings together leaders in Orthopaedic Trauma for lectures, case-based presentations, and lab sessions that illustrate the best practices in fracture care. The course discussions also include best practices for integration, billing, and coding for PAs and NPs in Orthopaedics.

TARGET AUDIENCE

This course is intended for PAs and NPs who are early on in their careers or experience of treating orthopaedic trauma while practicing in general orthopaedics, taking acute orthopaedic call with inpatient/outpatient or caring for orthopaedic injuries in ER/UC/General Trauma services. ALL levels of experience PAs and NPs are invited to register and attend.

PAs and NPs focused in orthopaedic trauma will find this a good foundation but we also highly recommend attending our other OTA course options of Resident Comprehensive Fracture and Advanced Trauma Courses, Boot Camp, and the Annual Meeting.

This program is not yet approved for CME credit. Conference organizers plan to request 14.5 AAPA Category 1 CME credits from the AAPA Review Panel. The total number of approved credits is yet to be determined.

ON THE AGENDA

CASE PRESENTATIONS

- Dysvascular Extremities/
Mangled Limb
- Polytrauma/Hemodynamically
Unstable Pelvic Ring Disruption
- Foot and Ankle Injuries:
Urgencies vs Outpatient Injuries
- The Other Side: Being the
Patient

SKILLS LABS

- Femoral Nail
- Lower Extremity/External
Fixation
- Distal Humerus Plating
- Suturing

KEY TALKS

- Compartment Syndrome
- Osteoporosis
- Fracture Healing
- Fixation Theories
- Common Pediatric Fractures
- Musculoskeletal Infection
- Amputations

Wednesday-Friday, October 17-19, 2018

RESIDENT COMPREHENSIVE FRACTURE COURSE

Program Chairs

Carla S. Smith, MD

Michael P. Leslie, DO

OVERVIEW

The Resident Comprehensive Fracture Course will be presented in six (6) separate small group modules, with 22-24 residents and 5 experienced faculty educators per module.

The modules will have a rapid-fire series of mini-lectures, an extensive open case-based discussion, video demonstrations of techniques, and hands-on skills lab exercises. Modules will cover fundamental principles of fracture care distributed among six topics: articular, diaphyseal, foot and ankle, geriatrics, pediatrics, and pelvis/polytrauma/acetabulum, plus a lunch-time spine session.

This course offers pre-course educational on-demand video materials. Details will be sent with registration confirmation as well as an online basic science pre-test and an onsite clinical post test.

TARGET AUDIENCE

This course is targeted for PGY1 - PGY4's. Others who feel they will benefit will not be excluded. Attendance is limited so early registration is recommended.

MODULES

- ARTICULAR
- DIAPHYSEAL
- FOOT AND ANKLE
- GERIATRICS
- PEDIATRICS
- PELVIS/POLYTRAUMA/
ACETABULUM

Visit the [OTA website](http://ota.org) for complete program details.

Thursday, October 18, 2018

YOUNG PRACTITIONERS FORUM

Program Chairs

Lisa K. Cannada, MD

Jodi A. Siegel, MD

OVERVIEW

The purpose of the Young Practitioners Forum is to provide programming targeted towards senior residents, fellows and orthopaedic trauma surgeons new in practice. Information on topics not taught in training and wisdom from lessons those in practice learned will be discussed. Our target audience will be provided tools for a successful career. The Speed Mentoring session at the end of the program will provide an opportunity to interact and ask questions in a friendly environment.

TARGET AUDIENCE

This course is intended for the practicing orthopaedic surgeon who takes emergency room or trauma call. Current techniques in orthopaedic care will be stressed with attention to appropriate soft tissue management and up-to-date implant selection. Case discussions will be used for interactive learning and audience participation.

INVITED FACULTY

Timothy S Achor, MD
Peter Althausen, MD, MBA
Christopher T Born, MD
Lisa K Cannada, MD
Daniel J Coll, MHS, PA-C
Kyle J Jeray, MD
Clifford B Jones, MD
Michael S Kain, MD
Ronald W Lindsey, MD
Eric Meinberg, MD
Holly Tyler-Paris Pilson, MD
Judith A Siegel, MD
David C Templeman, MD
Brian M Weatherford, MD
Bruce H Ziran, MD
