Erik Kubiak, MD & Robert P. Dunbar Jr., MD
Program Chairs

Attendees of this activity can earn up to 11.75 AMA PRA Category 1 Credits™

Target Audience
This course is intended for the practicing orthopaedic surgeon who takes emergency room or trauma call. Current techniques in orthopaedic care will be stressed with attention to appropriate soft tissue management and up-to-date implant selection. Case discussions will be used for interactive learning and audience participation.

Learning Objectives
Upon successful completion of this course, you will be able to:

- Review current indications for operative and non-operative treatment of fractures and dislocation
- Summarize the intraoperative techniques and complications related to simple and complex fracture management
- Demonstrate appropriate surgical techniques, approaches and implant selections for fracture care medication and their prescriptions
