## TAKE THE TRAUMA OUT OF TRAUMA CODING (E/M and SURGICAL CODING)

Margaret Maley, BSN, MS  
*Senior Consultant*  
KarenZupko and Associates, Inc.

Paul T. Appleton, MD  
*Course Chair*

## OVERVIEW

Margaret Maley from KarenZupko & Associates, Inc. returns to shed light on big coding and documentation issues facing orthopaedic trauma surgeons. Staged procedures, bone grafts, debridement and fracture care are just some of the issues tackled in the workshop. Maley will explain medical necessity, E/M documentation, new CPT interprofessional consultations and the 2019 relaxed guidelines from CMS. Fracture care and the correct reporting of PA/NP services, the focus of many audits and take backs, will also be addressed.

*CME  
credits will  
be awarded  
for your  
participation  
at this activity.*

Don't miss this opportunity to attend a coding course developed strictly for orthopaedic trauma surgeons and their staff. Each attendee will receive a copy of KZA's popular workbook full of concrete examples and practical tools. Attend this course and streamline your coding. Don't pass up this terrific value investment!
