SEPTEMBER 25 - 28, 2019 • DENVER, COLORADO • #OTA2019

ORTHOPAEDIC TRAUMA
BOOT CAMP

COURSE AGENDA

Wednesday-Thursday,
September 25-26, 2019

Program Chairs
Robert P. Dunbar Jr., MD

Frank A. Liporace, MD

CME credits will be awarded for your participation at this activity.
OVERVIEW
The 2019 OTA Bootcamp Course offers busy surgeons an intense review of the current state of the art of fracture management. We bring together thought leaders in Orthopaedic Trauma for case-based presentations and lab sessions that illustrate the major issues related to the management of each fracture. This course is designed for busy surgeons who treat fractures as part of their practice. The Boot Camp Course offers surgeons the chance to add practical applications to their practice and have one’s most pressing questions answered. CME credits will be awarded for your participation at this activity.

TARGET AUDIENCE
This course is intended for the practicing orthopaedic surgeon who takes emergency room or trauma call. Current techniques in orthopaedic care will be stressed with attention to appropriate soft tissue management and up-to-date implant selection. Case discussions will be used for interactive learning and audience participation.

LECTURES AND CASE PRESENTATIONS
- Upper Extremity
- Pelvis & Hip
- Lower Extremity
- Knee and Leg
- Foot & Ankle
- Infection
- Nonunion/Malunion
- Getting Through the Night

LABS
- Proximal Humerus Plating
- Distal Humerus Plating
- Pilon Plating
- Semi-Extended Tibial Nailing

LEARNING OBJECTIVES
Upon successful completion of this course, participants will be able to:
- Review current indications for operative and non-operative treatment of fractures and dislocation.
- Summarize the intraoperative techniques and complications related to simple and complex fracture management.
- Demonstrate appropriate surgical techniques, approaches and implant selections for fracture care medication and their prescriptions.
