Orthopaedic Trauma Association

General Information

Description

The OTA Specialty Day features an energetic and entertaining agenda for trauma experts, generalists and international attendees focused on practical strategies for difficult clinical situations, best evidence for contemporary controversies, and highlights from the OTA annual scientific programs. The morning will feature a combined session with Limb Lengthening and Reconstruction Society (LLRS). The afternoon will feature a combined session with American Shoulder and Elbow Surgeons (ASES).

Target Audience

This meeting is designed for orthopaedic surgeons and is beneficial to related allied health care professionals. OTA has created the program based on stated needs and interests expressed from previous Specialty Day attendee evaluations.

Educational Objectives

- Determine a decision making strategy for limb salvage versus amputation in severe lower extremity injuries
- Identify contemporary operative techniques for lower extremity nonunions and malunions, including limb length discrepancy
- Describe evidence-based recommendations for treatment options when treating intra-articular upper extremity fractures

Accreditation

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME). The Orthopaedic Trauma Association (OTA) is accredited by the ACCME to provide continuing medical education for physicians.

Credit Hours

The Orthopaedic Trauma Association designates this live activity for a maximum of **7.5 AMA PRA Category 1 Credits™**. *Physicians should claim only the credit commensurate with the extent of their participation in the activity.

*This includes credits for:

Combined session with LLRS – 4.0 AMA PRA Category 1 Credits™
 Combined session with ASES – 2.75 AMA PRA Category 1 Credits™
