Appointment needed

Community Testing Sites

Further testing sites are provided on

<https://www.tarrantcounty.com/en/public-health/disease-control--prevention/COVID-19/covid-19-testing-in-tarrant-county.html>

These community testing sites are conducted using a full PCR/NAAT test. This is not a rapid test though the results are available the same evening or next afternoon in most cases. Exceptions happen. For example, Friday sample results are typically available, Monday afternoon.
