# PELVIS AND ACETABULUM COURSE

**Original Seattle Convention Center (Arch Building) 611-612**

## OVERVIEW

As a result of participation in this activity, participants will be able to gain a better understanding of providing care for complex pelvic and acetabular surgical patients obtained through case presentations, discussions, debates and summary “take home points” presentations.

## LEARNING OBJECTIVES

Upon successful completion of the 2023 Pelvis and Acetabulum Course, participants will be able to:

1. Understand the principles of complex pelvis and acetabulum fracture treatment through case discussion and presentations.
2. Understand pelvic and acetabular fractures as a component of a complex polytrauma situation.
3. Demonstrate appropriate decision-making strategies for the treatment of anterior and posterior pelvic ring as well as complex anterior and posterior acetabular fractures.
4. Understand different techniques for open and percutaneous reduction and internal/external fixation of pelvic and acetabular fractures.
5. Understand current controversies in the care of multiple injured patients with pelvic and acetabular fractures
