1	It definitely seems as though most academic positions are already filled before they are even made public (if they are indeed ever made public). If you aren't part of the "circle in the know," you don't stand a chance.	7/22/2023 4:30 PM
2	Limited by number of jobs available	7/20/2023 8:48 AM
3	I was particularly looking for academic positions which were very limited and most positioned would have required me to be primarily at a Level II center.	7/20/2023 8:37 AM
4	Job options limited because overall the number of jobs available were very limited, in particular at a level 1 trauma hospital, not necessarily because there were a lot of applicants. A lot of places I reached out to mentioned that they would love to have another person/could use help, but dont have the budget to hire someone.	7/5/2023 11:15 PM
5	There are jobs - but almost nobody will ever find the "perfect job" when it comes to checking every single box. Have to have some flexibility.	6/22/2023 9:15 PM
