To whom it may concern,

The Orthopaedic Trauma Association and the Fellowship Committee have recommended that Orthopaedic Trauma Fellowship programs participate in in-person interviews if at all possible. This is based upon the strong preference of both the applicants and the program directors.

Reasonable accommodations and exceptions should be made for applicants that cannot travel.

Sincerely,

A handwritten signature in black ink, appearing to read 'Michael Weaver', with a long horizontal flourish extending to the right.

Michael Weaver  
Chair, OTA Fellowship Committee
