

## **Trauma Care in Resource-Scarce Settings**

### **Vision:**

OTA is committed to supporting orthopedic trauma care in resource-scarce settings by providing reliable education, training, and professional connections. Our goal is to be the go-to online resource for orthopedic professionals at every stage—from pre-medical students to experienced surgeons—offering curated learning materials, a strong professional community, and lifelong educational opportunities. Through strategic partnerships, we ensure that essential knowledge and resources are accessible to those working in environments with limited support.

### **Beneficiaries:**

Surgeons and trainees in resource-scarce environments resulting from economic, political disaster-related or other reasons.
